ALISON JAGGER

Yorkshire born and bred, Alison has always had a deep connection with all forms of art however her main passion lies in street photography. As a solo traveller and self-confessed free spirit, she draws inspiration from the urban landscape she loves to explore.

Alison states there is nothing better than waking up in an unfamiliar city and recording its character, colour and vibrancy through her curious lens. With her eye for detail and unique style Alison has been featured in many on-line exhibitions.

The exhibition runs from 22/04/26 to 03/06/26
